

## **PANEL DESIGN & FABRICATION**

The Engineers at Pump Solutions will custom design controls to your specific requirements:

UL 508A certification shop  
Build-to-print or custom builds  
Complete turnkey solutions  
OEM builds & Private Labeling  
Application evaluations  
PLC, HMI, & PC-based control systems  
Conceptual design  
Hardware & component specification  
Back Panel layout & design  
Panel fabrication  
In-house testing  
Live system testing  
Custom programming  
Design-build  
Single Source Responsibility

## **Controls Support/Service:**

Troubleshooting  
System Retrofitting  
System maintenance: Preventative and Emergency  
Installation and maintenance  
On-site Commissioning  
Field Services  
Testing, Start-up and Training  
Continued support throughout the product life  
1 – 3 year Warranty  
Dedicated to Customer Service

## **Applications:**

Aggregate  
Booster Systems  
Dewatering  
Hospitals  
Hotels  
HVAC  
Irrigation  
Manufacturing

Fountains  
Fuel Transfer  
Pharmaceuticals  
Metering  
Municipals  
Marine  
Food/Beverage Processing  
Wastewater

Oil & Gas  
Pools  
Spas  
Slump Transfer  
Slurries  
Universities
